brío³

The evolution of the species.

brío³ is the 3rd generation of the Brio tabletop range from Necta. With more capacity and features plus a new design, the **brío³** is an evolution of the well-known Brio concept matching with latest customer requirements and market trends. Increased cup capacity, latest technology and high flexibility are the key words of the new **brío³**.

CAPACITY: 300 cups, up to 7 canisters with different volumes, larger perfectly balanced waste containers.

TECHNOLOGY: extremely flexible and complete 16-bit electronic control, which is compatible with the PC application Flash. This allows downloading of sales statistics (also in EVA-DTS format), software updating and cloning of existing setups through the Up-Key or a palmtop connected via an RS232 interface. Executive and MDB protocols.

Z 3000 espresso brewer and Necta mixers: another guarantee for optimum drink quality.

FLEXIBILITY: master/slave connection with Snakky and Snakky SL with combined selections and only one payment system.

Canisters with different capacities

Blue LCD display
2 lines x 16 characters

Easy to install on the base cabinet due to the new and functional prearrangement. Available in basic (empty) and equipped versions (with solid and liquid waste containers). A bill validator can be installed in the base cabinet.

Mechanical counter as a standard

5 pushbuttons to enable maintenance functions

New system ensures top panel is not left open after ingredient filling

Easy internal access, even when banked, due to the 180° opening of the cup turret with double hinge

Perfectly balanced liquid and solid waste containers

High capacity coinbox (approx. 1,100 coins)

Protected compartment for payment systems. Coin mech or validator can be fitted together with a cashless system.
